

## TRANSYLVANIA

by Nox Arcana, 2005

21 tracks, with a total running time of 55:45

The problem with this latest from [Nox Arcana](#), is that they are setting the bar higher and higher with each release. Each one just gets better than the last one. It makes me wonder how long they can keep doing this??? I guess we'll just have to keep waiting!

As much as we enjoyed being lead into the dark crypts of Lovecraft's world with Necronomicon, with Transylvania, they take us on a wonderfully dark journey through the land of the Carpathian mountains, filled with bats, howling winds and wolves. Their musical storytelling, with the spoken words, the chanting, and the wonderful organ music, is something that all horror and gothic fans will enjoy.

Nox Arcana continues to deliver great music for those Halloween nights, or any dark and gloomy evenings, when you want to add a little bit more atmosphere to your night. Or even to bring some of that darkness to you in the blinding daylight hours as well.
