

PHANTOMS OF THE HIGH SEAS

By Nox Arcana

21 Tracks

[Nox Arcana](#) has set sail on their 10th voyage into another entertaining soundscape with Phantom of the High Seas. Hard to believe that these guys crank out such wonderful scores so quickly. This time out, they take on a theme of pirates and ghostly ships that sail the darkened seas. But if you're thinking that this is going to be a bunch of drunken pirate songs, you're wrong. As always, Nox Arcana creates beautiful and haunting sounds and melodies with a central theme. So even if you're not a big pirate fan, you can still enjoy this CD.

The CD is filled with tales of the haunted sea, surrounded by the eerie sounds of ghosts, organs, creaking boards, and howling winds. Yet again, Nox Arcana takes us on a musical journey that is one that you'll return to time and time again.
